CONSTRUCTION NOTICE

TDS Telecom's contractor, Quanta Telecom Services, will be working throughout the City of Rathdrum to install new TDS fiber lines.

Generally, the TDS fiber lines will be installed via directional drilling (mostly-trenchless construction) alongside City streets.

All restoration work, including lawn disturbance and repairs to irrigation systems damaged by this work, will be restored by Quanta Telecom Services. Please call 1.855.259.8576 to report any damages to irrigation lines and/or inadequate lawn restoration.

IMPORTANT!

FIBER-OPTIC NETWORK CONSTRUCTION IS ABOUT TO BEGIN.

Bringing fiber optics to your neighborhood may affect your property. Please be advised that:

1. A contractor will be in your area marking underground utilities with flags or spray paint.
2. **WE NEED TO KNOW IMMEDIATELY** if you have an underground watering system, fence, security system, or private power. If so, **please:**
 - ✓ Mark your systems with flags or spray paint **AND**
 - ✓ Call the construction hotline at 1-855-259-8576

DURING CONSTRUCTION, we'll use drilling and/or plowing techniques that are designed to limit disruptions. We'll also use existing utility easements, backyard pole lines, and public rights-of-way as much as possible. However, there will be areas where digging is required. Construction will be completed as quickly as possible.

We'll promptly clean up and restore any areas disrupted by construction. If construction is interrupted due to winter weather, we will return in the spring and complete cleanup efforts.

Questions? Please call
